

SWISSCOAST AG

MEDIA KIT · SEPTEMBER 2026

ABOUT

Swisscoast AG is a Swiss technology and innovation company founded in 2003 and headquartered in Pfäeffikon SZ, Canton Schwyz. We build production-grade blockchain and decentralised finance products, with a focus on the Hedera Hashgraph ecosystem, and we deliver real-world token programmes for municipalities, climate organisations and international institutions.

BOILERPLATE (SHORT)

Swisscoast AG is a Swiss blockchain innovation company from Pfäeffikon SZ. It builds DeFi protocols on Hedera Hashgraph - including HLiquity and the HCHF Swiss Franc stablecoin - and real-world token programmes such as ClimateActions and BIDI.

PRODUCTS & PROJECTS

ClimateActions (2026, with MyBluePlanet)

Mobile-first Swiss climate app: local actions earn ClimateTokens confirmed on the blockchain and redeemable with local partners. climateactions.ch

BIDI Biodiversitäts-Gutscheine (2025, Gemeinde Muri bei Bern)

Municipal biodiversity vouchers, 1 BIDI = 1 CHF, redeemable with local merchants. muri.swisscoast.org

HORUS (2025)

Decentralised prediction markets on Hedera with 3-5 second finality and DAO dispute resolution. thehorus.xyz

HLiquity & HCHF (2024)

First decentralised borrowing protocol on Hedera: 0% interest loans against HBAR, issuing the HCHF Swiss Franc stablecoin. Audited by Omniscia. hliquity.org

dCHF (2018)

The first privately issued digital Swiss Franc, launched on Ethereum on 20 March 2018.

UNICEF smart contract (2017)

The first-ever smart contract programmed for UNICEF.
